Heidelberg A great place to study

The city of Heidelberg is located in southwestern Germany in the state of Baden-Wurttemberg. Nestled in the Neckar valley and close to the French border, Heidelberg is best known for its romantic castle overlooking the old town with its cobbled streets and many cafés. Heidelberg has a tradition of more than 600 years of higher education. This academic culture is reflected in the presence of a multitude of academic and scientific institutions and of cultural venues of all stripes. The city is home to 140,000 permanent residents and 35,000 university students. The international airports at Frankfurt and Stuttgart are within easy reach. Heidelberg is a stop on Germany's high-speed rail network.

Heidelberg University of Education is a modern research university with a focus on educational research and the training of teachers and other professionals in the field of education. The University's overriding objective is to achieve excellence in educational research and training and to support university students and researchers from Germany and abroad in the development of their educational or academic career.

Heidelberg University of Education: Facts and figures

Students: 4,700

Teaching staff: 575

Dr. paed. / Dr. phil. and PostDoctoral

The doctoral degree and the *venia legendi* can be received at the Faculty of Education and Social Sciences, the Faculty of Cultural Studies and Humanities or the Faculty of Natural, Human and Social Sciences. Ph.D.-Students can become a member of the PH Heidelberg Graduate School.

German as a Foreign Language

The entrance requirements are on the European level A1/A2. We offer classes for grammar, phonetics and intonation, German history and culture, supplemented with field trips. Degree students receive special support in language skills and academic writing.

Modules in English

Courses taught in English are offered by the English Department (Literature, Linguistics, Cultural Studies, TEFL) and, to a limited extent, by the Education Department. Master and Ph.D.-Students are accepted for individual study programs. Theses can be written in English.

Other special features

The International Forum is a series of social and cultural activities for our students from abroad together with German students, including peer mentoring and language tandems.

Refugees

As a registered refugee you have the options to attend Heidelberg University of Education as a guest student or as a (prospective) student. Please contact the International Office for further information.

International cooperations

Heidelberg University of Education has more than 50 partner institutions all over the world. Heidelberg University of Education participates in a wealth of exchange programs, including ERASMUS+, Baden-Württemberg-STIPENDIUM, DAAD programs and other international research projects in education.
