Guest Lectureships: Reallocation of Funds to Digital Formats for the Year 2020

Ladies and Gentlemen, dear colleagues,

Due to the restrictions imposed by the corona pandemic, our project cannot be realized as planned for the year 2020. However, as in other DAAD-funded projects, we can reallocate funds earmarked for physical mobility and implement virtual formats. This does also apply to guest lectureships. I ask you and your colleagues at the partner universities to use virtual formats for the guest lectureships whenever possible. These formats make an important contribution to the internationalisation at home and enable students and teachers who do not want to or cannot realise physical mobility to gain international teaching and study experience.

Funds that become available will also make it possible to pay fees within the framework of the DAAD guidelines. The fees are based on the number of hours or days taught.

Fees for lectureships in Germany (€)		
Time scope	Teachers without academic qualification	Teachers with academic qualification
1 hour	60 €	80 €
2 hours	110 €	160 €
3 hours	160 €	250 €
4 hours	210 €	330 €
5 hours	260 €	410 €
6 hours	310 €	490 €
7 hours (full day)	360 €	560 €

Unfortunately it is not possible to pay fees to lecturers of the Heidelberg University of Education within this framework. If you would like to offer a virtual guest lectureship at a partner university, however, you can receive funds for student assistants from programme funds. For this purpose, you can use **an amount of 60.15 € (equivalent to 5 hours for a student assistant) for your assistants per taught hour**. The amount can also be used for student assistants with first or second degrees, in which case the number of hours needs to be adjusted accordingly. This funding is for student assistants only and may not be used for other purposes. We must record and quantify employment by name in the final report.

In all probability we will also be able to use funds for virtual formats of teaching and studying in the **ProMobil^{GS}** project in the following programme years.

With kind regards,

Henrike Schön (Project Manager **ProMobil^{GS}**) and the team
