Interviews

During orientation week and the first days of term, you will be asked to sign up for a compulsory interview. The purpose of the interview is to diagnose your language proficiency in English with a view to the oral exam in the second module. You do not need to prepare anything for this informal interview. Please sign up immediately after the orientation session, there are various dates and times available.

Stay abroad

During your studies we expect you to stay six months abroad. Based on our experience, this is important to meet the intercultural and foreign language requirements in the final oral exam.
